MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group is one of the leading retailers of lingerie with shaping functions in Hong Kong, with production facilities in the PRC and Hong Kong. The Group principally offers a wide range of its own branded lingerie that are designed with shaping functions which aim to achieve better body appearances, including bras and panties, body shaping underwear and chest support vests. The Group also (1) sells other products without shaping functions, which primarily include breast cream, panties, nude bras, swimwear, bras straps and pads, and waist bands; and (2) provides beauty services.

During the period under review, as the novel coronavirus pneumonia (the “**COVID-19 pandemic**”) explodes again in Hong Kong together with the spread of new Omicron COVID-19 variants at the beginning of 2022, this fifth wave of the COVID-19 pandemic has yet come to an end. The consumer sentiment in Hong Kong became conservative and thus the consumer market remains sluggish.

Looking forward, it remains unclear as to (1) when the fifth wave of the COVID-19 pandemic in Hong Kong will be over; (2) when the travelling arrangements between Hong Kong and the PRC will be resumed; and (3) the impact of raising interest rates in the USA to the economy and the consumer market in Hong Kong.

The Board of directors of the Company will (1) continue to monitor the development of the COVID-19 pandemic and closely monitor the day-to-day operation and management of the business and tighten the cost control measures; (2) optimize the resource allocation to upgrade the core lingerie products and develop new and fashionable lingerie products according to consumer needs; (3) invest in developing the e-commerce exclusive lingerie products and the online shopping market; and (4) proactively seek for potential business opportunities. The Board expects that these measures will bring positive effects on the Group’s financial performance and increase the value for shareholders in the long run.

MANAGEMENT DISCUSSION AND ANALYSIS

REVENUE

During the period under review, the Group recorded a revenue of approximately HK\$11.4 million, which principally represents income derived from (1) the sale of lingerie products and other complementary and ancillary products; (2) provision of beauty services; and (3) income from unused credit packages, representing a decrease of approximately 12.3% compared with the revenue of approximately HK\$13.0 million recorded for the corresponding period in 2021 as a result of the decrease in sales volume due to weak retail sales caused by the COVID-19 pandemic and the pandemic preventive measures imposed by the Hong Kong Government.

GROSS PROFIT MARGIN

Gross profit margin of the Group has decreased by approximately 5.2% from approximately 78.1% for the three months ended 30 June 2021 to approximately 74.0% for the three months ended 30 June 2022 as a result of the decrease in sales volume due to weak retail sales caused by the COVID-19 pandemic and the pandemic preventive measures imposed by the Hong Kong Government.

EXPENSES

Selling expenses during the period under review increased by approximately HK\$1.0 million from approximately HK\$5.0 million for the three months ended 30 June 2021 to approximately HK\$6.0 million for the corresponding period in 2022, which was mainly attributable to the increase in marketing expenses for the promotional activities and depreciation of right-of-use assets.

Administrative expenses increased by approximately HK\$1.3 million from approximately HK\$4.7 million for the three months ended 30 June 2021 to approximately HK\$6.0 million for the corresponding period in 2022, which is primarily due to the increase in depreciation of right-of-use assets and staff costs.

(LOSS)/PROFIT ATTRIBUTABLE TO OWNERS OF THE COMPANY

Loss attributable to owners of the Company for the three months ended 30 June 2022 amounted to approximately HK\$3.3 million, compared to the profit attributable to owners of the Company of approximately HK\$0.7 million recorded for the corresponding period in 2021. This was primarily due to the decrease in sales volume and the increase in staff costs, depreciation of right-of-use asset and marketing expenses for the promotional activities.
